From Good to Great
 Since opening its doors in October 2016, the new, 1.6 million ft² Humber River Hospital has been at the top of our acute care energy benchmark chart. But they're not done yet. Having profiled their story in the 2016 Forum and site tour, we will catch up this year with their challenges and success, and plans for ongoing improvement in what is becoming one of the most energy efficient hospitals of its kind in North America.

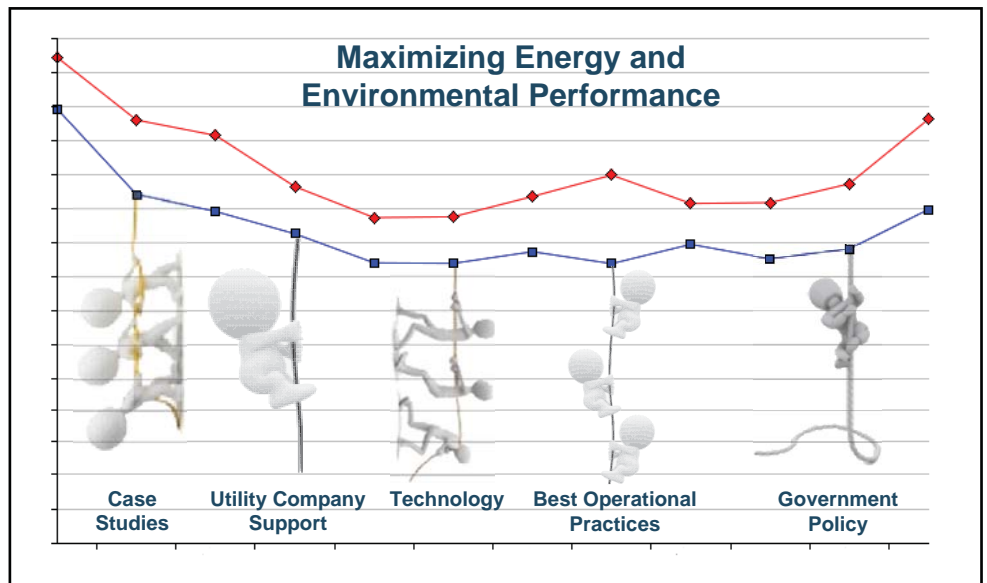

Sustainability Forum 2017

Everything you need to maximize the energy and environmental performance of your hospital

June 7, 2017 8:00 a.m. – 4:00 p.m. Black Creek Pioneer Village
June 8, 2017 9:30 a.m. – 3:45 p.m. Hospital Site Tours

The Sustainability Forum is Greening Health Care's annual signature event, bringing together hospital executives, facility directors, industry experts, government and utility companies to drive forward the energy and environmental performance of the hospital sector. Forum 2017 is the place to learn, network and contribute to leading edge thinking about the responsibility and actions of the healthcare sector in sustainability, and what high performance hospitals are doing to achieve exceptional results. Expert panels and case studies will address key management and technical issues in overcoming obstacles to success.

LEARN & SHARE WITH PEERS FROM OTHER HOSPITALS ABOUT:

SUSTAINABILITY FORUM 2017 - THE PROGRAM

THE GREENING HEALTH CARE PROGRAM

Greening Health Care is the largest program of its kind in North America, helping hospitals work together to lower their energy costs, raise their environmental performance and contribute to the health and wellbeing of their communities. Members manage data, assess their performance and track savings using a powerful online system. They share knowledge and best practices through workshops, webinars and networking to help plan, implement and verify improvements. This is a program of The Living City managed by Toronto and Region Conservation.

VIEWS FROM THE TOP

Hear from leading hospital executives about how energy efficiency and sustainability impact their priorities, and how policies, management practices and guiding principles support high performance and continuous improvement.

NEW HOSPITALS

Updates on the real energy performance of new hospitals, and case studies of leaders among existing hospitals provide the backdrop for in-depth examination of critical success factors in achieving and sustaining high performance facilities.

NEW TECHNOLOGY

Feature presentations explore the latest on Fault Detection and Diagnostics and renewable energy. The OR Ventilation Best Practices Guide from our 2016 research is presented along with how it is being put into practice, and our 2017 research project into best practice for boiler controls is formally launched.

TO SPONSOR OR REGISTER FOR THIS EVENT:

Phone: (416) 661-6600 ext 5590
Email: gstott@trca.on.ca

EVENT FEES:

GHC members and sponsors: free
Non-members, government, associations and utility companies: \$150.00 + taxes
Other industry participants: \$250 + taxes
Limited spaces are available for vendor sponsorship and attendance.

THE PROOF OF THE PUDDING...

...is always in the results. A growing number of Greening Health Care member hospitals are now among the most energy efficient in North America. See who they are, learn from case studies and panel discussions about what they are doing differently to become so good, and find out how you can replicate their success.

CELEBRATING SUCCESS

This will be our second year celebrating best-in-class hospitals that have reached their targeted energy performance with The Living City Energy Efficiency Leadership Awards. 5% Club Awards will also be presented to hospitals that have reduced their total energy by at least 5% since they joined the program.

LOCATION FOR THIS EVENT:

Black Creek Pioneer Village
1000 Murray Ross Parkway
Toronto, ON M3J 2P3
